

ORGANIC COCONUT OIL FOR HEALTHY SKIN + HAIR

Coconut oil is a natural beauty elixir. It's brimming with fatty acids, lauric acid, proteins and antioxidants that deliver intensive hydration, nourishment and protection to give your skin and hair a healthy, glowing radiance.

COCONUT TREE STORY

Coconut Tree Skinfood + Hairfood is a blend of pure, certified organic, ethically sourced coconut oil enriched with botanical extracts, natural oils, butters, vitamins and antioxidants, all selected for their deeply nourishing, restorative and protective qualities. Our products are packed with natural goodness, free from toxic ingredients and a pleasure to use every day.

Our range has been inspired by the natural powers of coconut oil to promote healthy, radiant skin and hair. Coconut oil is naturally bursting with essential fatty acids, nutrients and antioxidants, which absorb rapidly to moisturise, nourish and protect skin and hair and give a healthy glow. It's no wonder that coconut oil has been used by tropical island communities for generations to nourish, heal and beautify their bodies inside and out.

Our philosophy is that every body deserves to be nourished, nurtured and protected. We believe that what goes on your body should not only be effective but should also be good enough to eat*. We have taken this to heart when selecting our premium coconut oil and all our ingredients.

Coconut Tree Skinfood + Hairfood is proudly Australian made and owned.

THE CIRCLE OF LIFE

Our organic coconut oil has been sourced from a Fair Trade venture that provides rural people in South Pacific communities with meaningful employment, a regular income and better living standards.

The pure, certified organic coconut oil in all our products has been cold pressed from mature fresh coconuts harvested in the South Pacific. As it is untouched by heat or chemical treatment before, during or after pressing, every nutrient is left intact to nourish skin and hair.

Because of its great versatility, the coconut palm is known as 'The Tree of Life'. Creating healthy products from ethically sourced coconut oil, which are then used to sustain healthy bodies is the cycle of how we ensure Coconut Tree products sustain every body... it's the circle of life.
